Summary

Unlimited Tonnage Captain, coming from a commercial background. (Oil/LNG)

Demonstrated ability to run extensive refits, plan & execute worldwide remote cruising, respond to major emergencies and carry out purchase surveys for older converted hulls.

After hours, I enjoy writing about my voyages and craft stories from them, that can be displayed online.

I will always do what I say and say what I will do.

Command Experience

A list of the ladies I had the honor to command and some of the most memorable moments.
